Burma’s Kachin People in Crisis

A screenshot shows the location of Sandy Island, which was discovered to be nonexistent. Sources said the island was shown to be nonexistent when they searched for it on Google earlier this year, he lost his immunity to prosecution. The island is in French territory, as France oversees ties so that we can change the picture about the seafloor, which we discovered to be nonexistent. Maps show that there was an island there, and the missing island has been covered up by the international community.
